I mean, in data format... for example cd writer can do in mp3 [data format] & audio tracks format. ANSWER 4745454b Put CD audio on DVD? I see 3 possible results.1) It works, but you will have a lot of lost space on dvd. I believe it will still be limited to 70min of audio, so there will be a lot of lost space.2) Works, but luck trying to find a player to use it. As far as I know, the only place you can play is on a computer or DVD player. You probably can not play it in a portable CD player as they do not recognize DVD.3) It just does not work. My question is why? I can understand putting .mp3 files on a DVD to burn/back them up. As for creating a game disc, I'll stick to a CD-R. (they're cheaper anyway.) Answer from burninbush Of course you can put songs on DVD - data is data. The question will be the player; if you intend to use putka to play music, then this is done, no problem. I don't know of any commercial player who would do that. You have a better answer? Publish it in the discussion that generated this advice. Disney's documentary Into The Unknown: To Make Frozen 2 gave Disney fans inside to watch the making of a movie. For Frozen 2, that means writing songs, animated water, and even improving turtle lines. Following a movie like Frozen isn't easy, even for Disney. For Disney's Frozen 2, they were also looking for an Elsa song, but perhaps even more meaningful. The song Elsa sings after traveling through the enchanted forest to Ahtojalan. During this song, Elsa becomes the Fifth Spirit connecting nature and people. During its opening scenes, this song is almost cut from Disney's animated sequel. I don't think we've found a reason to keep him, the story's director, Mark Smith, said during the documentary. The song feels like a patient on the operating table, but we have one more chance to get it back. In the early stages, the creators struggled to find out exactly what Show Yourself meant. How will this song move the story forward? As a result, the authors Robert Lopez and Christine Anderson-Lopez returned to the drawing board several times. Anna, Olaf, actress Idina Menzel and Elsa attend frozen world premiere disney disney Alberto E. Rodriguez/Getty Images for Disney during the documentary into the Unknown: Making Frozen 2, a song cut from the animated film A few months before the cinematic release of Frozen 2, the filmmakers invited the audience to show the animated film and give their feedback. Inevitably they liked Show, but they didn't have to include a song with the norrudri people and arendelle soldiers, Look at the Sky. The writers had several options, in terms of whose voice Elsa heard. In one version, it is Elsa's own voice, which summons the Queen to her own destiny. Another option was to have the voice not human, but Ahtojalan as his being. Who's the voice that calls Elsa? After several different times on the drawing board, it was decided that the voice he called Elsa came from his late mother. Because of the changes, Evan Wood went back to the recording booth. Fortunately, the film was finished on schedule. Show yourself and everything. (Although there has always been the other song Elsa in Frozen 2 - Into the Unknown.) Disney sequels even won several awards and nominations, including a Golden Globe nomination for best animated film. Frozen 2, as well as the original Frozen, lives on Disney's streaming platform.
